

FUNCTIONAL BLOOD CHEMISTRY FOUNDATIONS

A review of the Foundational Concepts of Blood Chemistry! This exciting new seminar is a great way to prepare for the Functional Blood Chemistry weekend course, or to help review the concepts learned during the Functional Blood Chemistry Analysis weekend seminar.

March 10 Charlotte, NC Steven Noseworthy

8 CEUs Available (Call for details)

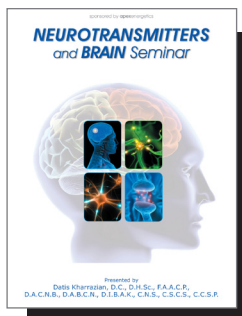

MASTERING FUNCTIONAL BLOOD CHEMISTRY

This 3-day course, written by Dr. Datis Kharrazian, is meticulously designed to teach a comprehensive (yet simple) system of evaluating blood chemistry tests. This course has evolved from our 2-day course and has numerous updates and new material. This information-packed course provides detailed explanations of pathways and biomarkers in a structure relevant to the actual flow of a clinical nutrition practice. Numerous case evaluations, diagrams, and flow charts have been created to help attendees understand how to master functional blood chemistry.

May 4-6 Santa Monica, CA Datis Kharrazian

16 CEUs Available (Call for details)

NEUROTRANSMITTERS & BRAIN

This course reviews physiological interactions between neurotransmitters, hormones and the immune system. Clinical applications, questionnaire forms, laboratory tests and nutritional supplements will be emphasized. A complete review of the literature regarding natural supplements that support neurotransmitters, hormones and the immune system will be provided in the course book. The connections between endocrine,

nervous system and immune interactions will be reviewed. Numerous clinical pearls, and case studies will be presented to provide information that can be used effectively by the practicing clinician.

March 10-11 New York, NY Thomas Culleton

15 CEUs Available (Call for details)

MASTERING THE THYROID

This course will redefine the standard for supporting thyroid health through natural approaches.

Dr. Kharrazian has meticulously organized a comprehensive three-day course to help clinicians master the concepts of thyroid physiology, assessment, and nutritional support. You will learn how the role of the immune system, endocrine

system, environmental haptens, and medication reactions all affect thyroid health.

March 23-25 Philadelphia, PA Thomas Culleton
 April 13-15 San Francisco, CA Thomas Culleton
 April 20-22 Del Mar, CA Thomas Culleton
 April 27-29 New York, NY Thomas Culleton
 May 18-20 Austin, TX Thomas Culleton

20 CEUs Available (Call for details)

NEUROENDOCRINE IMMUNOLOGY SERIES

INTEGRATIVE DETOX SYSTEM

This expansive series provides an in-depth look at the nutritional management of neuroendocrine-immune health. Attending each module will allow the healthcare professional to learn about the latest research, important laboratory tests, and best nutritional strategies for supporting health.

This series will examine various health issues associated with the neuroendocrine-immune system.

MODULE 1: The Brain's Regulatory Systems

- Cortisol and Melatonin Circadian Rhythm Physiology
- The Role of Nitric Oxide and Glutathione in the Immune System
- Clinical Jewels from Case Studies

February 18	Dulles, VA	Michael Pierce
February 25	Columbus, OH	R. Shane Steadman
March 10	St. Louis, MO	Michael Pierce

MODULE 2: Gluten and Leaky Gut

- Understanding the Complexity of Gluten Sensitivity
- Breaking the Complex Web of Leaky Gut
- Clinical Jewels from Case Studies

March 10	Atlanta, GA	R. Shane Steadman
March 31	Boston, MA	C. Christopher Turnpaugh
April 14	Philadelphia, PA	C. Christopher Turnpaugh
April 21	Columbus, OH	Steven Noseworthy
April 21	Dulles, VA	R. Shane Steadman
May 19	St. Louis, MO	R. Shane Steadman

MODULE 3: The Brain-Gut-Immune Axes

- The Brain-Gut Axis and Clinical Applications
- The Brain-Immune Axis
- Clinical Jewels from Case Studies

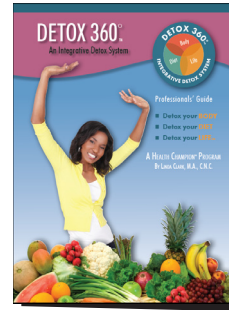

February 11	Minneapolis, MN	R. Shane Steadman
March 24	Chicago, IL	Michael Pierce
March 31	Fort Lauderdale, FL	Steven Noseworthy

MODULE 4: The Development and Aging of the Brain

- Renewing the Aging Brain
- Neurochemistry of Childhood Brain Developmental Disorders
- Clinical Jewels from Case Studies

March 31	New York, NY	Richard Herbold
April 14	Minneapolis, MN	Michael Pierce
May 5	Fort Lauderdale, FL	Steven Noseworthy

NO CEUs Available

This unique seminar integrates the best detoxification methods in easy-to-follow strategies to promote the excretion of deep-seated toxins and significantly lower the inflammatory load of the body:

- diet and whole foods from a detox perspective
- detoxification lifestyle practices
- targeted nutritional support
- homeopathic cleansing approaches

All of these components are put together in a **four-week Detox and Educational Program** that you can effectively run with **groups** or individually. You can easily customize it as part of a nutrition program with your other therapeutic approaches.

More dates coming soon!
